A collage of various electronic components and tools. At the top left is a black microchip labeled 'WTR 2965 OVV'. To its right is a blue soldering iron. In the center is a person in a white lab coat and orange gloves using a magnifying glass to inspect a circuit board. To the right is a teal smartphone labeled 'VIS PRO' with 'JCID' written above it. Below the chip is a large light blue microscope labeled 'SOPTOP'. In the center is a white temperature gauge labeled 'WL' with '183 °C' on its screen. To the right of the gauge is a pair of red-handled pliers and a green-handled wire cutter labeled 'Ma Ant'. At the bottom right is a red power plug and a blue cable. The text '2UUL' is written in the bottom right corner.

All  JCID Products Available

V1sPro, P15, V1SE, V15PM, EEPROM's  
 All Types of Repair PCB Adaptors  
 All Types of Repair TagON Flex

**All IC's Available**  
Iphone, Android,  
iPad, Macbook
